► Optimizing Performance

Select harddrive type that locate your soundbanks.

► Optimizing Startup Time

Startup time of UVI Workstation or Falcon is dependent on the number of Soundbanks in your library.

To reduce startup time, uncheck 'automount' in Soundbanks Preferences.

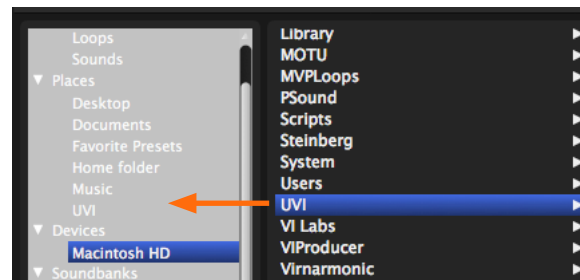

In this case, you may want to quick access your Soundbanks folder. We recommend that you save your Soundbanks folder as a favorite place.

To do so, follow these steps:

- Open browser
- Locate your Soundbanks folder from Devices tab
- Drag your Soundbanks folder to the leftmost column
- Now you can see your Soundbanks folder in the Places tab

Note: you can create multiple search paths and auto-mount settings can be set individually.

► Soundbank Location (UFS Path)

You can change the Soundbanks location including external drive to install.

To manage your soundbank location, open the preferences panel of UVI Portal, or Soundbanks Tab in preferences panel of the UVI Workstation or Falcon.
